QUESTIONS ARE TO BE SUBMITTED IN WRITTEN FORMAT ONLY. THIS IS A LEGAL PROCESS AND WE CANNOT ANSWER QUESTIONS VERBALLY. Answers to any questions received will be posted on the FDDC website (fddc.org) by March 30, 2020.

Cone of Silence: For purposes of this solicitation, FDDC has established a solicitation silence policy (Cone of Silence) that prohibits oral and written communication regarding all formal solicitations for goods or services (formal proposals, Request for Proposals, Invitation for Proposals, Request for Bids) issued by the FDDC with the exception of the formal written questions that may be submitted as described above. The period commences from the date of advertisement until award of contract.

Applicable Laws and Regulations: All applicable Federal and State laws, county and municipal ordinances, orders, rules and regulations of all authorities having jurisdiction over the services to be provided shall apply to the bid/proposal throughout, and they will be deemed to be included in the contract the same as though they were written in full therein.

Funds Available: The Florida Developmental Disabilities Council, Inc. (FDDC) has set aside a maximum of **\$750,000** federal funds for a period not to exceed 12 months for fiscal support of this proposal **to fund up to five projects at \$150,000 each**. The award will remain firm for the contract period unless addendums to the scope of work are required by the funder.

Funding Source: 100% federal funds, CFDA #93.630 from the U.S. Department of Health & Human Services, Administration on Intellectual and Developmental Disabilities, through FDDC.

Ineligible Entities: Federal regulations limit and restrict the ability of individuals or entities debarred or suspended by a Federal Agency from doing business with, or contracting for the use of federal funds with, the Council. See 29 CFR, Part 98; 45 CFR, Part 76.

The two original Transportation Voucher Pilot projects funded by the Florida Developmental Disabilities Council, Inc., and the Florida Department of Transportation in 2016 and/or 2017 are ineligible to apply.

Evaluation of Award: All proposals received by the due date and time will be evaluated by the FDDC. Each submitted proposal that is responsive as determined by FDDC by meeting the minimum qualifications and price will be reviewed and scored according to the criteria set forth in the Invitation for Proposals by a scoring committee. The Council will then undertake a risk review of the offeror for each proposal scoring over a 70. This review will consist of three components: (1) a self-assessment of risk completed by the applicant; (2) inherent risk assessment; and (3) an assessment of prior performance if the offeror has previously contracted with the Council.

An offeror will receive a rating of LOW, MODERATE, or HIGH for each applicable component. A rating of HIGH risk does not preclude the offeror from receiving the subaward if determined appropriate under the circumstances by the Council's State Plan Committee; however, the ratings may be used to determine which subawards may require specific award conditions, closer supervision and/or more detailed monitoring strategies. The Council's State Plan Committee may also choose not to fund an award based upon the risk assessment if it determines that elevated risk will adversely affect the Council's ability to fulfill its duty as a steward of federal funds.

The Council's State Plan Committee will utilize the Risk Assessment ratings in addition to the score received from the scoring committee as part of the evaluation in its decision to fund the subaward. The State Plan Committee will review the risk assessment ratings for the top-scoring offeror and determine whether or not to fund the top-scoring proposal. If the top scoring proposal is not funded because the Risk Assessment has been determined to be too great by the Council's State Plan Committee or if negotiations with the top scoring offeror are unsuccessful, the proposal will no longer be considered, and the State Plan Committee may review the risk assessment ratings for the second highest scored proposal and determine whether or not to fund the proposal. This process will continue until a subaward is made, or until the State Plan Committee recommends otherwise. Please note that the State Plan Committee may use the prior performance ratings for proposers with a history of contracting with the Council as the deciding factor of an award based on specific experiences of compliance/non-compliance with Council guidelines.

The FDDC reserves the right to reject any or all proposals. No work shall begin until a contract is executed by the FDDC.

Project Contract Type: Cost reimbursement based on review of deliverables that demonstrates a satisfactory level of performance and expenditures.

Project Contract Period: All work shall be completed within 12 months of the contract execution date.

Background and Purpose of Proposal

Access to affordable and reliable transportation services continues to be a top-ranked barrier to full participation in the community by Florida's citizens with intellectual and developmental disabilities. Key barriers include limited access to on-demand, 24 hour a day service; limited availability of transportation for a variety of trip purposes; and cost prohibitive trip charges. These factors impede the ability of individuals with intellectual and developmental disabilities to secure employment, pursue postsecondary education or training, and access the greater community for the purposes of shopping, dining, paying bills, and engaging in recreational and leisure activities.

In 2016-17, the Florida Developmental Disabilities Council, Inc., in collaboration with the Florida Department of Transportation, funded two pilot transportation voucher projects that were designed to provide greater transportation options for Florida's residents with intellectual and developmental disabilities.

The Hillsborough Area Regional Transit Authority (HART) was one of the two pilot projects funded. The successful outcomes of the HART model, known as the HARTPlus Customer Choice Voucher Program, have led the Council to make funding available to replicate the project implemented in Hillsborough County in up to five additional counties or areas (e.g., a consortium of counties such as Leon, Gadsden, Jefferson) of Florida. Each of the five most responsive and responsible proposals, submitted for an individual county or as a consortium of counties, will be funded at a maximum of \$150,000.

The HARTPlus Customer Choice Voucher Program provides door-to-door transportation for people with disabilities and needs that prevent them from using the HART local fixed route buses. Key elements of the HARTPlus Customer Choice Voucher Program are described below, along a summary of their successful outcomes.

- Procurement
 - HART procured Yellow Cab of Tampa to deliver the HARTPlus Customer Choice Voucher Program's transportation service.

- Pricing
 - HART covers \$16.00 per trip.
 - The customer pays \$4.00 per trip or uses the HART Voucher.
 - The total trip cost is \$20.00 for trips up to 7.6 miles.
 - Customers are responsible for any additional cost over \$20.00, and costs are negotiated with bookings.

- Process for Payment and Quality Assurance
 - HART receives a monthly invoice from the vendor.
 - HART verifies trips and vouchers from clients who used the service.
 - Quality assurance calls are made for 10% of all trips.

- Outcomes
 - HART increased their service availability from ¾ mile trips to 7.6 mile trips; from three day notice for trips to 24-hour transportation availability; and significantly improved access to the greater community for riders.
 - At the culmination of the one year project funded collaboratively by the Florida Developmental Disabilities Council, Inc. and the Florida Department of Transportation at a total of \$150,000, HART reported 27,813 trips at \$16.00 a trip; an operational cost of \$445,008 versus past history of \$1,001,268 through other means; and a total savings of \$556,260 with 8% growth.
 - HART exceeded projected expectations for trips, including wheelchair trips; fully established a reservation call center; established a customer complaint process; and provided sensitivity training for the vendor.
 - The project has been sustained long-term, and recent data reflect an average of 7,000 trips per month and an estimated 3.3 million in cost savings since the inception of the project.

This project seeks to replicate the HARTPlus Customer Choice Voucher Program in up to five additional counties/areas of Florida. The Council intends to fund the top five responsive and responsible proposers in the amount of \$150,000 each to replicate the HART model, or new models similar in scope, in communities with or without a public transportation system. The Council's ultimate desired outcome is to attain innovative transportation options in five additional counties or areas (e.g., consortium of counties) of the state that will provide evidence of increased access to the community and satisfaction with transportation services for two or more life activities (e.g.,

employment, postsecondary education or training, recreation, leisure activities, shopping) for individuals with intellectual and developmental disabilities.

The FDDC is seeking entities to apply who meet the following qualifications and can demonstrate the ability to fulfill the scope of work outlined in this proposal by describing specific details of proposed plans for implementing the scope of work, including timelines and identification of staff and/or transportation providers who will perform and provide oversight for the scope of work within the Transportation Voucher Replication Project Work Plan Template, provided as a separate, editable document, and available on the Council's website at <https://www.fddc.org>.

FORM # 5
SELF-ASSESSMENT OF RISK
PURPOSE AND BACKGROUND

The purpose of the Self-Assessment is to obtain an understanding of your organization’s capacity to adequately document, record, track, and report expenditures of federal funds as well as evaluate your organization’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the resulting subaward. The assessment of risk is a requirement for use of our federal funds.

During the funding process, each submitted proposal will be reviewed and scored according to the criteria set forth in the Invitation for Proposals. The Council will then undertake a risk review of the offeror for each proposal scoring over a 70. This review will consist of three components: (1) a self-assessment of risk completed by the applicant; (2) inherent risk assessment; and (3) an assessment of prior performance if the offeror has previously contracted with the Council.

Based upon the following scale, an offeror will receive a rating of LOW, MODERATE, or HIGH for each applicable component. Please note that a rating of HIGH risk does not preclude the offeror from receiving the subaward. The Council’s State Plan Committee will utilize the Risk Assessment ratings in its decision to fund the subaward.

Score	Rating	Assessment
0-3	HIGH	Requires intensive follow-up and may require action plan to address identified risks. Specific follow-up requirements will vary but may include contract conditions such as providing additional or more detailed financial and project reports; establishing additional prior approvals; or undergoing specific technical assistance. An action plan may be required to address specific areas of identified risk.
4-6	MODERATE	May need improvement or technical assistance to improve identified risks. Specific follow-up requirements for improvement will vary but may include contract conditions such as periodically providing detailed financial and project reports; establishing prior approvals; or undergoing specific technical assistance.
7-12	LOW	Indicates offeror’s internal controls likely to reduce non-compliance or fraud. Requirements typically include standard contract conditions for providing detailed financial and project reports; prior approvals; or technical assistance.
