XI. Public Comment
None

The meeting was adjourned at 1:45 p.m.
The Public Policy Committee met Thursday morning and approved two items as Legislative Priorities.

1) The first item was Preservation of the iBudget Waiver.

This year the Public Policy Committee recommends at a minimum that the iBudget be maintained with the same funding as last year. The following are recommendations of what is needed to keep the iBudget functioning properly:

- The Council supports yearly increases in utilization that accurately reflect the additional needs of individuals on the iBudget waiver.

- The yearly budget for the waiver should include a regular reduction of the iBudget Waitlist. The Council recommends that 10% of the number of individuals on the waitlist be transitioned off the list each year.

- The Council supports increasing provider rates for all Agency for Persons with Disabilities services included under Personal Supports.

- The Council recommends steering clear of for-profit managed care. This population has unique long-term care needs that are not compatible with managed care companies that work with acute health care needs. Not enough states have used managed care for this population so there is little data from which to assess outcomes and determine quality.

2) The second item is continuing the Council’s support of the work of the I decide campaign which promotes Supported Decision Making (SDM) as one of the alternatives to full guardianship when appropriate.

Viviana Bonilla Lopez who leads this effort spoke to the committee and shared the proposed bill and other materials.

The Committee approved continued work on the effort including the bill but wanted a more comprehensive written Council position on Supported Decision Making.

Breen completed her annual self-assessment of her performance and provided it to the Executive committee members for review. Kabot collected input from staff and Council members and consolidated their input into the performance assessment from the Council, which will be included in Breen’s personnel file along with Breen’s self-assessment. Kabot highlighted the positive feedback received from both Council members and staff regarding Breen’s performance, especially this past year, and thanked Breen for her past three years as Executive Director for the Council.

IV. Conflict of Interest
Chair Kabot summarized the recent analysis conducted by both the Council’s attorney and the Director of the national Information and Technical Assistance Center for all Developmental Disability Councils and highlighted the importance of the conflict-of-interest issues for the Florida DD Council specifically.

The Executive Committee unanimously voted to direct the full amount of the 2021 Operating budget’s board development line item in combination with a portion of the operating budget’s consultant line item to bring back to the Council the expertise of Margaret Lynn Duggar and Associates, who had worked with the Council and staff in 2018 to develop and revise all the Council’s governing policies and practices.

The purpose the new eight-month consulting agreement is to utilize Margaret Lynn Duggar and Associates expertise to thoroughly analyze all of the federal, state, legal and fiduciary requirements that could potentially impact the Council, develop and/or revise processes and documents the Council must use as its best practice model for conflict of interest and help facilitate with Breen, myself and our Vice Chair, Baker to address any necessary changes that must be made with the Executive Office of the Governor appointments, recruitment, nominating and elections to ensure that all practices are in place to keep the Council in good stead. All of this will need to be in place and presented to the Council no later than May 2021 in preparation for Council elections and is not to exceed a total of $31,000.
