2021 FDDC CAPITOL UPDATES

VOLUME 21, ISSUE 6 - April 19

Budget Conference Season is Here!

We are in Budget Conference Season and we have our recommendations for funding the iBudget Waiver. Please share your opinion via phone call or email with the following linked lawmakers. The Council will educate these [Senate](#) and [House](#) lawmakers who currently oversee all state health funding in Florida with the following recommendations:

- First, we would like to recommend that there be **no cuts to services** for people on the iBudget Waiver. The pandemic has affected most of us and this is not the time to cut services that could send families into more stress and potentially having a need for more state assistance.
- Second, we are recommending **that more than 300 people in crisis come off the waitlist**. In 2018 and 2019 over 900 individuals were in crisis or foster care categories each year and I suspect those numbers were higher last year due to the challenges families and individuals faced due to the pandemic.
- Third, we recommend **reinstating rate increases that were vetoed last year and assist providers to afford the new \$10.00 an hour minimum wage**. Individuals and families need a more reliable group of Personal Support Workers. Currently, there is a 51% turnover rate for personal support services in the family home, independent living situations and group homes. Many of these workers barely make minimum wage and providers may not be able to stay in business when the minimum wage goes up to \$10.00 an hour without state assistance.
- Finally, we have a recommendation **for funding those on the waitlist through the Employment Enhancement Fund (\$500,000) and the Individual and Family Support Fund (\$900,000)**. These dollars aid with critical services while individuals are on the waitlist to prevent individuals and their families from going into crisis.

Several bills the Council is providing education and support on are up either in their last committee or poised to be heard on the floor. Please see the linked bills below for more information.

Important Bills to Watch

[HB 681 Supported Decision-making by Tant](#)

Summary

This bill revises provisions of law relating to guardianship and alternatives to guardianship. The bill creates a process for supported decision-making (SDM), including providing requirements for court, guardian petition, supported decision-making agreement, decisionmaker and supporter, and educational agencies. Parents of children with disabilities are often told they need to seek guardianship as soon as their child turns 18. Florida law states that you cannot put someone under guardianship if there is a “less restrictive” alternative, but the law does not offer a meaningful alternative. This proposed legislation would list alternatives to guardianship in Florida Statute, including SDM and ensure judges have the information they need to protect people with disabilities. The bill would require anyone trying to put another person under guardianship or guardian advocacy to show why an alternative, including SDM, will not work. Effective Date: July 1, 2021. **The Council is supporting this proposed legislation.**

[SB 184 - Purple Alert by Berman and CS Sponsors: Transportation](#)

Summary

This bill requires the Department of Law Enforcement, in cooperation with the Department of Transportation, the Department of Highway Safety and Motor Vehicles, the Department of the Lottery, and local law enforcement agencies, to establish and implement the Purple Alert; requiring the local law enforcement agency having jurisdiction to notify media and alert subscribers if a Purple Alert is determined to be necessary and appropriate. The bill provides that the Department of Law Enforcement, as the Purple Alert coordinator, and certain agencies, employees, individuals, and entities are immune from civil liability for damages when performing certain actions in good faith. This bill is another avenue to prevent drowning and other accidents that can happen when someone with verified cognitive challenges and history wanders from their home. Effective Date: Except as otherwise expressly provided in this act and except for this section, which shall take effect July 1, 2021, this act shall take effect July 1, 2022. **The Council is supporting this proposed legislation.**

[HB 173 - Individual Education Plan Requirements for Students with Disabilities by Tant CoSponsors: Arrington, Bartleman, Benjamin, Daley, Eskamani, Grieco, Hunschofsky, Morales, Woodson](#)

Summary

This bill revises the timeline for development and implementation of a student's individual education plan (IEP) for transition services for student with disabilities to postsecondary education and career opportunities. The bill proposes an earlier timeline to assure that a path has been started before high school. Another part of the bill provides for clarity regarding a component that the Council thinks it is critical to help parents of children with disabilities understand what graduating at age 18 with a standard diploma means. Students often lose access to three years of services they would otherwise be entitled to receive if they **do not** defer graduation. Also, there are programs that are available only to students who **do** graduate at age 18. Parents and their children need to understand the differences. Effective Date: July 1, 2021. **The Council is supporting this bill.**

[SB 1150 - Low-Income Home Accessibility Program by Harrell](#)

Summary

The bill would establish the Low-Income Home Accessibility Program within the Florida Housing Finance Corporation (FHFC). The bill requires the FHFC to work with the Centers for Independent Living, to determine further eligibility requirements and adopt and revise policies and procedures governing the operation of the program. The bill requires that funds appropriated to the FHFC for the program be deposited in the State Housing Trust Fund. This program would provide funding and services to help individuals with disabilities live independently with accommodations to their living situation for wheelchairs, ramps and other adaptive modifications and services. Effective Date: 7/1/2021. **The Council is supporting this bill.**

[HB 269 - Definition of Developmental Disability I by Morales](#)

Summary

This bill revises definition of term "developmental disability." This bill may be cited as "Diana's Law." It replaces the current statutory definition of "developmental disability" with the definition of the term currently used in federal law.

Specifically, the bill defines a developmental disability as a severe, chronic disability of an individual that:

- Is attributable to a mental or physical impairment or combination of mental and physical impairments.

- Is manifested before the individual attains age 22.
- Is likely to continue indefinitely.
- Results in substantial functional limitations in 3 or more of the following areas of major life activity:
 - Self-care.
 - Receptive and expressive language.
 - Learning.
 - Mobility.
 - Self-direction.
 - Capacity for independent living.
 - Economic self-sufficiency; and
 - Reflects the individual's need for a combination and sequence of special, interdisciplinary, or generic services, individualized supports, or other forms of assistance that are of lifelong or extended duration and are individually planned and coordinated.

The bill also provides that an individual from birth to age 9 who has a substantial developmental delay or specific congenital or acquired condition, may be considered to have a developmental disability without meeting three or more of the above criteria if the individual, without services and supports, has a high probability of meeting such criteria later in life. Effective Date: July 1, 2021. **The Council is supporting this bill.**
